

Collective Scholarship Application

The Collective Scholarship Committee's goals are to: 1) Expand access to psychoanalysis in the broader community, in particular for individuals who have been harmed by trauma, specifically marginalization, racism, bigotry and/or poverty. The committee will provide support to make it possible for candidates to take on these types of patients who otherwise could not afford psychoanalysis; 2) Expand access to psychoanalytic training and broaden the community of psychoanalysts by supporting tuition costs of Candidates who are people of color (BIPOC) through scholarship awards.

Consulting Analyst:

- Please submit either: Your initial write-up and your most recent six month/yearly report or a one or two page summary of the case including: a thumbnail sketch of the case with diagnostic information, psychodynamic formulation, transference and countertransference information.
- If you are requesting a Scholarship: please explain why you are seeking tuition assistance, how much you are asking for, and for which trimester(s) you need assistance.

Please note that, if support is provided to you, you may be asked to evaluate the program at the end of the year.
