## Psychoanalytic Psychopathology

		• •			
The Psychoses	Forms of Borderline Organization			Character_	Neuroses
Failure to differentiate self and other	Low Level	Intermediate Level	High Level	Disorders	Symptoms viewed
(reality) Symbiotic psychoses Hallucinations	Narcissistic Characters	Sado-Masochistic Characters	Depressive Personality	Rigidity of the per- sonality charac-	as problems (ego dystonic) Conflicts and
Delusions Psychotic wish fulfillment Loss of self	Loss of Self Esteem	Infantile personalities	Hysterical Personality	teristics indicates high level of defen- siveness. Interpersonal issues not viewed as prob- lems (ego syntonic)	symptoms play a relatively limited role in overall functioning
	Esteem regulation problems - Rageful				
	Self-effacing critical		Feel Defective		
Direction Of Anxiety Develop	ment				·····
Direction of Anxiety Develop	ment	PRIMARY ANXIETY		ANXIETY	- SIGNAL
Annihilation	Loss of the object	object Loss of object's love		Castration anxiety	
Dissolution, overwhelmed by internal drives/external conditions - source not differentiated; being taken over, consumed,	of an essential part of the self as differentiation is incomplete)			Fear of castration/bodily injury Fear of superego guilt	
losing one's sense of self, paranoia, death and annihilation. Fears of becoming someone else; no boundaries between self and other; I and the world				Disappointment in one's self	
Loss of self	Loss of self-estee	m =	Feel defective	Loss of approval	Feel angry / competitive
Nature of Defenses				Res	. of Oedipus 6-7 yrs
<u>Infantile</u> Withdrawal Apathy, Giving in	Introjection / Projection Regressive Re-fusion (Merger) Narcissistic = Borderline =		Splitting: characterized by alternate idealization, devaluation,	Reactive defenses Doing / Undoing Isolation Regression	Repression Humor Sublimation (as defenses become
	Unattached - no separation between self and object Anger comes from perceived bruises to self-esteem	Attached, but poorly Has an internalized of Anger comes from perceived withdrawa retributions	bbj. displacement		adaptive they become their own sources of gratification
Hallucinatory Wish Fulfillment / Denial	Acting Out (immediate tension release)			Attribution of Meaning
